Supports Original Rear View Camera

You can view the rear view camera image in real-time while the vehicle is in motion. Additionally, when you shift into reverse gear, the device will automatically switch to rear view mode.

Also Supports TEYES Ultra-clear Camera

Supports Real-time Rear View Display And Recording

AHD

Free 1080P Camera
Viewing Angle: 120°

SONY AHD

SONY 1080P Camera
Viewing Angle: 160°

Complimentary

TEYES is constantly working to improve the clarity of the rear view camera. This product finally implements an ultra-clear signal with a resolution of 1920*1080P. During the action, when buying a TEYES multimedia system, a universal 1080P camera is included as a gift.

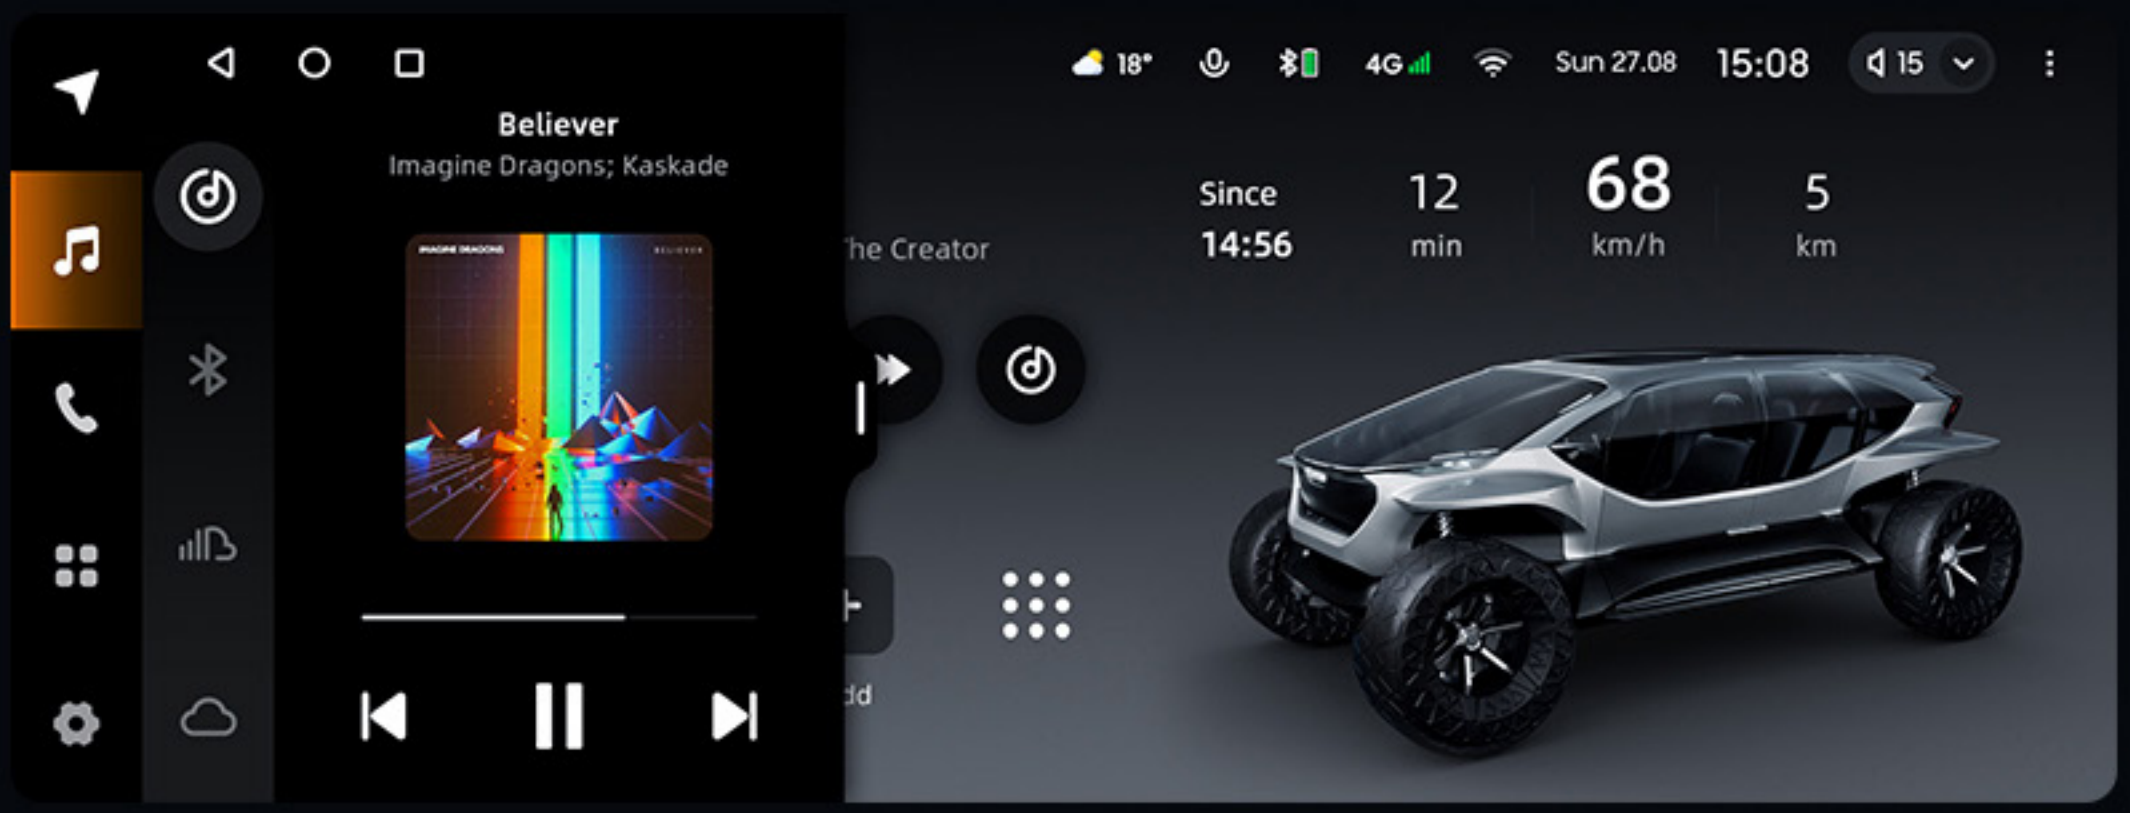

Add device

In addition, you can also choose to purchase a wider field of view and clearer night vision camera. It supports recording video from the rear view camera and saving the files to a storage card.

Add device

TEYES AR DVR is an ideal complement to the LUX ONE HU. It provides access to the ADAS driver assistance system, which warns you about the movement of the vehicle in front, alerts you about potential collisions and lane departures through sound and animation signals. You can conveniently control the device and view recorded footage directly from the LUX ONE HU.

Uncompromising DSP Audio Processing

ROHM32107 DSP Chip

Note: The sound field delay settings are not supported on

BENZ NTG5.0 systems due to their utilization of coaxial transmission.

16*2 Band Equalizer

Elevated Surround Sound Experience
